LETTER FROM THE PRESIDENT

Dear Colleagues,

As we approach the end of this active 1966-67 academic year, I wish I could convey how interesting, challenging, and rewarding alumnae work can be so that more would become personally involved. Confident that there are hundreds of you who have something very special to contribute to any organization, I think how wonderful for the College if your talents, intelligence and energy could be channeled toward the Mary Washington Alumnae Association — with a membership of over 8,000, look at the potential!

Granted, all can't hold an office nor serve in-committee; but each of you can show your interest in some fashion. *One thing everyone can do is consider the candidates (listed in this magazine) and CAST YOUR BALLOT NOW for your representation on the Board.*

Now, may I tell you about our most important project of the year? (Due to publication deadline, this brings you up-to-date on developments only through March).

In 1965 a study was made on *Control*

and Coordination of Higher Education in Virginia. At the conclusion, Dr. John Dale Russell, Director of the Virginia Higher Education Study Commission and a nationally noted educational consultant, made a report which commended leaders in Virginia for having maintained a general policy of providing degree-granting institutions with separate Boards. Mary Washington College was cited as an exception. The report further stated that the College enjoys relatively few advantages from its relationship with the University of Virginia and some disadvantages. The final statement that, "If either the College or the University were headed by a chief executive officer with less agreeable personality and with less willingness to cooperate, the situation would probably deteriorate rapidly and a change might be forced quickly," was the cause of much concern among our alumnae and others.

Rather than come to hasty conclusions, we decided that while no crisis existed we should make our own study

U.S. - INDIA EXCHANGE PROFESSORS ANNOUNCED

Two visiting professors from India will teach at Mary Washington College during the next session and one of our associate professors will become a member of the faculty at Miranda House in New Delhi under the U.S.-India Women's College Exchange Program.

Mrs. Zeba Bashiruddin of University Women's College, Hyderabad, India, is scheduled to teach three courses during the first semester, and will probably be available as a guest lecturer in other classes and at informal student gatherings. Juniors and seniors will have the opportunity to learn about Indian philosophy or art from a native of the country whose background and education have given her a rich appreciation of both. Or they may find her course in twentieth century literature, taught from a non-western approach, a challenging contrast to other English courses.

Since 1959, Mrs. Bashiruddin, who holds a B.A. and a M.A. from Osmania University, Hyderabad, has been a lecturer in English and general education in the University Women's College, part of the Hyderabad University Campus. She is completing her doctoral dissertation on "The Negro in William Faulkner" under an American Studies Research Center Fellowship, and hopes during her year in America to collect additional material on the subject. She is the author of several feature articles, longer articles and poems published in

Indian magazines. Mrs. Bashiruddin, who is the mother of two children, will teach at Elmira College in New York state after leaving MWC.

During the second semester, Mrs. Ranga Kapoor of Delhi will come to MWC from Elmira College, which also participates in the Indian Exchange Program. Mrs. Kapoor received an A.B. and a M.A. in English from Delhi University and since 1960 has been a lecturer in English at Indraprastha College for Women. She also holds a certificate in French and was awarded the Best Honors Student prize at Miranda House, Delhi University, in 1958. She has taken courses in English language teaching given by U. S. Agency for International Development and the British Council and has conducted a radio seminar on Henry James in Tamil for the Voice of America.

Mrs. Kapoor will teach three courses for the English Department: 1) Indian literature, 2) nineteenth or twentieth century literature, and 3) the novel. While the first two are restricted to juniors and seniors, sophomores will enroll for the third course.

Before assuming their teaching duties at colleges in the United States, both Mrs. Bashiruddin and Mrs. Kapoor will attend, on a Danforth Foundation grant, the summer session at the U. of Colorado. This will acquaint them with the educational and cultural program of an American university and with another section of the country.

Named to represent MWC in India is Dr. Lewis P. Fickett, Jr., member of the political science department, who will teach courses in his field and continue personal research on the Praja Socialist Party of India. He is a graduate of Bowdoin College and holds the LLB degree from Harvard Law School and a master's and Ph.D. from Harvard's school of public administration. Last summer he attended the Institute in Indian Civilization at Osmania University in Hyderabad and in 1965 he participated in the University of Virginia's Summer Institute for Asian Studies. He read a paper on the Praja Socialist Party of India at the Regional Conference on Asian Studies held at MWC on Feb. 3 and 4.

Before joining the MWC faculty in 1963, Dr. Fickett taught at Northeastern University and served with the Department of State's Foreign Service Office in Bonn, Germany and Algiers, Algeria. He is the fourth member of the MWC faculty to participate in the program. He and his wife, the former Constance Marsh '64, expect to leave for India early in June.

SENIOR CLASS GIFT IS QUEST XX POLICY

Pictured on our front cover is the presentation preview of the Senior Class Gift of a \$5,000 QUEST XX insurance policy, photographed at the 100th Day tea for Seniors. Making the presentation is Miss Susan Church, Senior Class President, to the pleased recipient, our Chancellor, Grellet C. Simpson. Jane Howard Patrick, Director of the QUEST XX program, looks on. Chancellor Simpson, a QUEST XX policy donor himself, complimented the Senior Class on its unique gift and said that he was particularly happy to have the class give an "on-going" gift that would continue to support the future programs of the Alumnae Association of which the class would soon be members.

The class specified that the proceeds from the policy be used for academic purposes rather than for building, and is hoping that this \$5,000 amount added to similar QUEST XX gifts from members of the Alumnae Association will enable the College to

DR. EDWARD ALVEY, JR., WILL RETIRE AS DEAN

"But with flag still flying."

The Dean's office on the second floor of George Washington Hall will be different during the session of 1967-1968, for Dr. Edward Alvey, Jr., will not be there. He is retiring as Dean at the end of the summer session.

Those of us who have known and loved Dean Alvey during the past years find it hard to believe that he has reached retirement age. He still looks as alert as ever; he still has the same outgoing personality; he can still enliven faculty meetings—those dismal occasions—with his inimitable wit and his gift for story-telling. And he can still be what he has been for so long, a source of inspiration and advice for both faculty and students.

No problem has been too trivial, no complaint has been too unreasonable to meet with his unfailing courtesy and consideration. Here again, his wit has been frequently mingled with his wisdom. On one occasion an irate parent wanted to know why his daughter was not getting better grades. When Dean Alvey asked me about her work in my course, I said, "I can tell you the reason, but I am afraid you can't tell her father. She just isn't very smart." Dean Alvey's eyes twinkled. He said, "I'll just write him that she is not a strong student."

Edward Alvey, Jr. was born in Richmond, Virginia, and attended the public schools there. All three of his degrees—B.A., M.A., Ph.D.—came from the University of Virginia. (To speak of "the University of Virginia, Charlottesville Branch" is one of his favorite jokes.) For a brief time he was a high school principal at Hot Springs, Virginia. From there he went to the Uni-

versity of Virginia as an instructor in a new teacher education program then being established. He was in charge of the student teaching program in English when, in 1934, he came to Mary Washington College as Dean—a position that he has held ever since.

Dean Alvey has received many distinctions. At the University of Virginia he was a member of the Raven Society, Phi Delta Kappa, and Phi Beta Kappa. Since his college days he has served as chairman of the Education Section, Virginia Academy of Science; State Chairman of the War Savings Program in Schools and Colleges (1941-1946, with a Treasury Department citation); Chairman of the Virginia Beta Council and National Beta Club. He has also received the Phi Delta Kappa Service Key award for outstanding service to education in Virginia.

His publications include the "Annual Review of Education" published in the *Americana Annual* each year since 1934 and the article on "Education in the Twentieth Century" in the latest edition of the *Encyclopedia Americana*. In 1964 he made a study tour of educational systems in the Soviet countries of Eastern Europe. At present he is chairman of the Association of Academic Deans of the Southern States. Recently he has been a member of the committee appointed by the Virginia State Board of Education to revise the requirements for State Teachers' Certification.

He has always helped Mary Washington to maintain close ties with the University of Virginia and was largely responsible for the introduction of the University Honor system here. During the final illness of the late President Combs he was the ranking official here and worked closely with President Darden of the University.

Nor has Dean Alvey confined himself to academic activities. He is a Past President of the Fredericksburg Kiwanis Club and the Chairman of the Board of Trustees of the Fredericksburg Presbyterian Church. He was at one time an ardent tennis player, and he was a frequent participant in the productions of the Mary Washington Players—he remembers particularly *The Taming of the Shrew*, *Twelfth Night*, and *Barrie's Quality Street*. Because of his acting

he was made a member of the national honorary dramatics fraternity Alpha Psi Omega. He has not acted now for some time, but he is still the first person backstage to congratulate the cast after current productions.

His zest for learning has certainly not been touched by his years. During the session of 1965-66 he enrolled in a beginning Spanish class at Mary Washington, and this session he is continuing with intermediate Spanish. During the summer of 1966 he accompanied a group of Mary Washington students to Spain.

Mrs. Alvey, the former Frances Ellen McClintic, has long been a familiar figure on the campus and, with her own distinct and highly flavored personality, has been a notable supplement to the Dean. They have entertained many faculty and student groups in their home. Nor should their daughter Ellen Alvey Montllor be forgotten. She now lives in Guadalajara, Mexico, with her husband, the American Consul-General. There are three grandchildren; the oldest, Pamela, has already declared her intention of coming to Mary Washington.

Another of Dean Alvey's favorite jokes concerns the Dean who charged too high a fee for a public appearance. "Couldn't we get something lower than a Dean" asked a member of the responsible committee. Another member of the committee replied, "There is nothing lower than a Dean." With Dean Alvey in mind, we might reverse that statement and say, "There is nothing higher than a Dean."

Though he will not be in the Dean's office, we shall not be deprived of Dr. Alvey's presence on the Mary Washington campus altogether. He plans to continue teaching in the Department of Education. "An Admiral, on leaving the Navy, is supposed to haul down his flag", he remarked at a recent faculty meeting. "But I refuse to lower my flag."

He will be succeeded as Dean by the present Associate Dean, Dr. R. W. Whidden.

(I should like to express my appreciation to Mr. and Mrs. Fred Miller and Dr. and Mrs. J. H. Dodd for assistance in preparing this article. Benjamin W. Early.)

CLASS OF '67 GIVES GIFT OF A LIFETIME - WON'T YOU?

Did you read the exciting cover story about the gift of a lifetime given by the Senior Class this year?

As you read this article you learned that the policy given by the Senior Class was paid in advance from the class's gift fund. Did you know that you personally can give a gift policy of the same type by making a small contribution each year for a maximum 20 years?

When you give a Mary Washington College Plan Gift Policy, you guarantee one or more thousands of dollars to the Mary Washington Alumnae Association upon your death. While you live, the cash building in the plan is always available to the Alumnae Association to meet college needs. For example: the \$5,000 gift policy given by the Senior Class will have a cash value in 20 years of \$1,985, and \$3,280 by the time Susan Church, President of the Class of '67, is 65. At any time while this cash is building during Susan's lifetime, the Alumnae Association may withdraw it for college use.

Won't you give YOUR gift of a lifetime to your college? So many things

will be needed in the future years to help Mary Washington keep its place as a leading woman's school. Your gift plan, together with the many others already given* and soon to be given, may be the only source of vitally needed future funds.

Look on the table on your right, and see the small contribution required annually, at your age, for each \$1,000 of your gift plan. This premium is tax deductible each year when you name the Mary Washington Alumnae Association as both owner and beneficiary of your policy.

Turn the page and complete the application on the reverse side NOW! Mail your application and check to either the Mary Washington College Alumnae Association, Box 1315, College Station, Fredericksburg, Va., or to the Woman's Life Insurance Co. of America, 1625—Eye Street, N. W., Washington, D. C. 20006.

PLACEMENT BUREAU ADOPTS GRAD SYSTEM

"Now every experienced graduate can put his qualifications before employers from coast to coast—with computer speed and without cost," so says Miss Isabel Gordon, Secretary of Placement, who makes no effort to hide her enthusiasm for a new service her office is making available to Mary Washington alumnae.

Known as the GRAD System, it is, in its most simple terms, a computer program designed to permit experienced college graduates to make their qualifications known to employers seeking to fill positions which are open.

"Not since the advent of the COLLEGE PLACEMENT ANNUAL almost ten years ago has such a revolutionary concept come upon the college placement and recruitment scene," Miss Gordon continues. "And it is perhaps no surprise that the College Placement Council, publisher of the ANNUAL, is representing us in this new, non-profit program."

Mary Washington graduates who have gone through the frustrating business of circulating résumés to employers and then awaiting results can appreciate what the new service can offer. Employers, for their part, will find it eye-opening to be able to search the qualifications of thousands of candidates in mere seconds—even "converse" with the electronic file until they get exactly what they want. The 21 major search items available to employers are teamed with a thesaurus of occupational skills so extensive that the Council believes it the most sophisticated means of selection yet devised.

Key to the dramatic new system is the College Placement Council's role as the corporation placement directors and employers formed a decade ago to assist themselves in doing a better job for the student and alumnus. In the CPC, as it is commonly known, over 1000 colleges and universities together with more than 2000 employers of the United States and Canada foster cooperation between campus and company through such projects as the GRAD program.

Gone for candidates under the new service are such problems as how to make their qualifications known to a broad spectrum of employers or how to avoid the onerous and time-consuming

business of mailing numerous résumés and then awaiting results.

In operation, the GRAD system is uncomplicated (the name, by the way, stemming from "Graduate Resume Accumulation and Distribution"). An alumna interested in finding new employment communicates directly with the MWC placement office. If Miss Gordon and her staff feel that the GRAD program will be of value to the individual in question, the candidate is given an instruction sheet and four-page résumé form, which she has completed and neatly typed, since it will be photocopied in its original form for distribution by the Data Center of the College Placement Council, Bethlehem, Pa. The service is free to the candidate.

At the Data Center of the Council, each résumé forwarded by an alumna is analyzed both in terms of present (or most recent) employment and of previous experience. Twenty-one key factors are extracted from the information and entered into an electronic file at a vast computer center some 60 miles from the Council offices in Bethlehem, Pa. The original résumé is microfilmed to be retrieved almost immediately upon receipt of an employer order.

All over the country, employers are beginning to call upon the GRAD System to assist their search for capable executive talent. They have at their disposal the thesaurus of GRAD terms

which enables them to establish rapidly the best description of the position open.

Employers using a teletype unit to query the GRAD System have almost immediate access to the electronic file, can phrase their own questions and obtain an equally prompt response. In a typical use, an employer may inquire for applicants on the basis of six or eight selectors—all in English since the system does not require codes. Hardly has his question been completed on the teletype when the machine begins to chatter in response, and he is told, for example, that 83 alumni whose qualifiers are in the system, meet his specifications. This is more than he bargained for, but no matter. The inquiry is restated with more stringent requirements and the number of qualifying applicants now drops to 17. Satisfied, he types the order to send résumés on the chosen candidates, which is electronically relayed to the Council data center, and the resumes requested are sent to him. From this point on negotiations are traditional with the employer contacting those applicants whose experience meets his needs.

Before, during or after the use of the GRAD System, alumnae are free to call upon their placement office for counsel. With the previous load upon the placement directors lightened, at least in part, by the GRAD System, it is hoped that even more extensive counseling will be available to alumnae.

The top floor of Thomas Jefferson Hall is now outlined only by steel girders, but the dormitory, which will house 195 girls, is scheduled for completion in September.

ALUMNAE ASSOCIATION GIFT BRINGS CHAPLAIN TO CAMPUS

Chaplain Peter D. MacLean, from the Officer Candidate School, Quantico, was the speaker for a Religious Concerns program at MWC on March 13 and 14. A gift from the Alumnae Association to the Speakers Fund of Student Government Organization at Homecoming last year made it possible to bring Chaplain MacLean to the campus.

The two talks given by Father MacLean, "The Future of Christianity," and "Crisis in Communication," attempted to examine the psychological and intellectual objections many feel toward religion and to build a valid and meaningful concept of what religion can be. The lectures were followed by open discussion and the Chaplain was also available for personal counseling interviews.

DR. ALAN S. PEIRCE
1909 — 1967

Dr. Alan S. Peirce, for 31 years a member of the biology department of MWC, died on January 18 of a heart ailment. He was 57.

The first MWC faculty member to participate in the Indian Exchange program, Dr. Peirce and his wife spent the 1964-65 school year in India

where he taught in the University College for Women in Hyderabad, the University of Bangalore, and the Woman's Christian College in Madras.

A member of the Hillcrest Methodist Church, he was a lay reader of that church and was associate lay reader of the Alexandria District of the Virginia Methodist Conference. He was a board member of the MWC Wesley Foundation.

In 1962 Dr. Peirce was elected to the City Council of Fredericksburg and served as chairman of the Public Interest Committee, resigning those positions when he went to India. He was also an active member of the local Human Relations Council, having served as its treasurer, and as a Director of the State Council.

Dr. Peirce was a native of Chicago, where he attended Crane Junior College. He completed his AB degree and received his MA and PhD from the University of Illinois. He is survived by his wife, Alice Wilkins Peirce; a daughter, Mrs. Aleta Kestel of Riverdale, Md.; a son, A. David Peirce of Suitland, Md.; a brother, David M. Peirce of Escondido, Calif.; and three grandchildren.

SENIORS ARE GUESTS AT SPOTSWOOD

The College colors of blue and white used in flowers, napkins and candles provided a festive touch for the tea table at Spotswood on Feb. 21, when the Seniors of 1967 were guests of the Alumnae Association. Blue-and-white-trimmed name tags shaped like mortar boards identified the hostesses, who were the members of the King George Chapter, and their assistants, the Class Agents for 1967.

About 100 people attended the tea which is given annually 100 days before graduation to acquaint the seniors with the Alumnae Assn. of which they will soon be members. Guests signed their names in a new guest book bound in white leather, the gift of the hostess chapter.

Greetings were received from the National President, Adele C. Giles '37 (Mrs. L. J., Jr.), who could not be present.

The atmosphere of fellowship and warm relations at the tea between the alumnae and their undergraduate sisters was heightened by the announcement from Miss Susan Church, Senior Class President, that their gift to the College this year was being made through the Quest XX Insurance plan sponsored by the Alumnae Association (see story page 3).

Serving at the tea table were *Jane Howard Partick* (Mrs. S. W.) '48 and *Marceline Weatherly Morris* (Mrs. E. R., Jr.) '50, members of the Board; and *Jane Ashton Steppe* (Mrs. A. J.) '47, President of the King George Chapter.

In addition to Mrs. Morris and Mrs. Steppe, other members of the King George Chapter assisting with the tea were: *Elizabeth Fitzgerald Braden* (Mrs. Boyd E.) '51, *Louise Gordon Davies* (Mrs. J. C.) '29, *Audrey Crittenden* '51, *Jane Glenn Garner* (Mrs. W. R.) '32, and *Barbara Sellers Roller* (Mrs. Lawrence W.) '60.

Class agents helping were Misses Peggy Ford, Betty Barker, Jeanne Torrence, Elise Moore, and Mary Haga.

MARY WASHINGTON AGAIN HOST TO EXCHANGE CONFERENCE

The conference of the United States—Indian Women's Colleges Exchange Program was held at Mary Washington College for the third time on April 2-4.

Attending the conference were teachers involved in the exchange program, Indian principals (presidents), administrative officials from participating American colleges and consultants for governmental agencies. Thus an opportunity was provided for American teachers going to India for the 1967-68 academic year to confer with officials from the Indian host colleges and for Indian lecturers to make recommendations and suggestions resulting from their teaching experiences in this country.

Among the topics discussed were: Conference Aims; The Educational System of India; The Indian College—Its Functioning and Organization; What is Expected of the Visiting American Teacher; How to be Creative in an Unfamiliar Environment; Living Arrangements in India; The Returning Teacher's Responsibility to Her Institution—What the Institution expects of Her.

The Exchange Program, established three years ago and planned for four years, has now been extended to a fifth year. Dr. Grellet C. Simpson of MWC was a member of the original team of five college presidents who went to India to help set up the program, and last November he returned to India as a member of an evaluation team and visited the six participating Indian colleges. He believes that the exchange program has benefited the participating colleges of both countries.

A conference similar to the one at MWC was held in New Delhi, India, during the visit of the evaluation team last December. In addition to Dr. Simpson, MWC was represented by Miss Mary Ellen Stephenson who was teaching at the Women's Christian College in Madras.

American women's colleges participating include: Hood, Elmira, Agnes Scott, Barnard, Bennett, Connecticut,

Goucher, Mary Baldwin, Mount Holyoke, Queens, Randolph-Macon, Sweet Briar, Western College for Women, Wheaton, and Mary Washington.

Indian colleges include: Indraprastha (Delhi), Isabella Thoburn (Lucknow), Maharani's (Bangalore), University College for Women (Hyderabad), Women's Christian College (Madras), and Miranda House (Delhi).

INDIAN PAINTINGS ENRICH ART COLLECTION

Dr. Mary Ellen Stephenson, exchange professor to India during the present school year, has made a gift of two Indian paintings to Mary Washington's modern art collection.

Krishen Khanna's 32½" x 41" canvas in rich browns entitled "Togendia" is

an abstract painting inspired by the artist's flight over an open crater near Tokyo. Krishen Khanna was born in Lyalpur, Panjab, in 1925 and attended the Mayo School of Art in Lahore. His paintings have been exhibited in many shows and galleries and the *Illustrated Weekly of India*, June 7, 1964, calls him a non-objective painter of note, saying "His is a comparatively sophisticated, self-conscious manipulation of tones and textures."

"The Man with a Bull" by Tyeb Mehta is a 50 x 60" canvas, more traditional than the former painting. Its rather drab colors give it a starkness representative of India, Miss Stephenson believes. Its creator was born in 1925 and studied painting at Sir J. J. School of Art in Bombay. He has exhibited in a number of galleries in India and in London, England, where he lived for five years, and at Massachusetts Institute of Technology, Cambridge, Mass. and New Jersey State Museum, Trenton, though he is not as well known in America as Krishen Khanna.

Dr. Stephenson completed her assignment in India on March 21, and after several weeks of travel will return to MWC about June 1. She will assume the Chairmanship of the Department of Modern Foreign Languages at the beginning of the 1967-68 session.

U. S.-Indian Exchange Conference in New Delhi, Dec. 1966. First Row (1) Miss Eva Shipstone who taught at MWC in 1966; (2) Dr. Elizabeth Lam, administrator of the Exchange Program, who will participate in the Alumnae College panel at Homecoming; Second row: (2) Dr. Mary Ellen Stephenson; (11) Miss Padmabai, who taught at MWC in 1965; (14) Mrs. Grellet C. Simpson. Third Row (1) Chancellor Grellet C. Simpson.

Elizabeth Haile Cloe writes she had much to be thankful for the past year. Her daughter, husband and two children from Calif. paid a long visit. William W. III was born to her oldest son. Her second son returned safely from Vietnam, was promoted to Captain, and won a medal.

Ina Scott Orrell's husband retired from the ministry and she from teaching and have made their home in Fredericksburg since June '65. Their daughter lives there.

Ada Nash Carlton retired in '62; two years later was left a widow. She lives alone in the home they had built 30 yrs. ago. She still keeps the garden they enjoyed together. Her newest interest is weaving on a four-harness Herold loom. After studying under professional weavers at the Va. Museum and Handwork Shop she bought her loom and now enjoys weaving linen guest towels, pillow cover material, table mats and napkins and plans now to try a rug.

Lucile Woody Greene taught many years in Hopewell. She married Dr. Carroll Greene, a dentist from Norfolk, and they lived at Va. Beach. Dr. Greene died in '51 and she moved next door to her sister in Highland Springs, taught there from '52 to '65 and retired. She does a little substitute work now.

Effie Berry Fuqua suggested that each member of our class bring pictures taken when in school at MWC to be put in a "scrap book" for the Alumnae House. She said Pearl Powell Smith is very, very sick in Memorial Hospital, Nassawadox. She will never be able to live at her home, so the family is making plans to put her in a nursing home near Hampton.

Gertrude White Irvine wrote that she was off to spend Christmas in Ky. with a son and family. She said darling grandchildren made things lively.

Martha Herndon Lee's husband writes that Martha has had Parkinson's disease for about 17 years and has been a complete invalid for 10 years. Hardening of the arteries has made her disease worse, but she is not suffering. They had three girls—two graduated from Longwood and the other died about four years ago. They have 11 grandchildren. Thanks to her husband, Raymond, for sending us this news. We extend sympathy.

Bett Hallett Goffigan and husband George have arthritis. Bett's only daughter Kathleen is married and living in Texas. Kathleen still teaches, but has 3 children. She won the first daughter's Alumnae Scholarship Cup from MWC, graduating in '44.

The following have said they expected to be at our 50th Class Reunion in June: Elizabeth Haile Cloe, Ina Scott Orrell, Lucille Woody

Greene, Effie Berry Fuqua, Gertrude White Irvine, and Margaret White Bear. Bett Hallett Goffigan would love to come but can't say yet.

I hope the rest of the class members will make every effort to join these, my sister Lyda and me there.

Grace Nason Snuggs writes that she and her husband spent Christmas season in Florida with their son John, his wife and daughter Susan 4. Son Harold, Jr. and his family, who live in Columbus, S. C., have 2 children, Elizabeth Anne 9 and Hal 5. Her daughter, Margaret Anne Hallman, also lives in Columbus. She has a curly headed daughter almost 3.

Her husband, Harold, teaches biology in Anderson College, Anderson, S. C., but due to a back injury suffered in Feb. 1966, he is having a leave of absence this year. She says "we are truly proud of Mary Washington College."

'21 Mary Virginia Bundick
Bloxom 23308

I have been unable to get any news for you recently, so at Christmas I sent cards to 35 people whose address I knew.

I had a letter from Cornelia Hogg's sister-in-law saying Cornelia died Feb. 8, 1966, from pneumonia caused by burns suffered when her house burned during Christmas week 1965. She was in MVC for 6 weeks. She had retired in 1962.

Elsie Keffer Irvine taught 2 years in Newport News public schools, after which she married and moved to Washington, DC. She taught in Montgomery Co., Md., 1923-39, then took time out to raise her only child, Harry, Jr., who was killed in an auto accident at age 26. (So sorry!) During 1949 when the teacher shortage was so great she went back to teaching 5th grade in Chevy Chase. She retired in June 1962. She has an B.S. degree from the U. of Md. and has been vice president of the Retired Teachers Assoc. of Montgomery County for the past 3 years.

A card from Virginia Dillard Bowie said that Cora Vaughan Abrams, who taught at Maury Elementary in Fredericksburg for several years, had retired and was not very well. Virginia still works part time. I also received a card from Llewellyn Belote Morris.

I had a letter from Elizabeth Stearns' sister telling me she was dead. She taught at Maury and Lafayette Elementary Schools from 1944-66. Elizabeth and her sister went to Europe together in 1956. Almost every summer from 1949-66 they went to the Interdenominational Bible

Conference at Massanetta Springs. She got her BS degree from MWC in 1944.

Lucile Hansford Brooks returned to MWC in 1954 and with five summers and some correspondence courses got her degree in 1959. She has been teaching in Stafford County since 1954, but expects to retire in June. Her daughter graduated from MWC in 1953 and taught in Newport News where her husband is now principal of a high school. Lucile has two grandsons.

I have not been in contact with Mattie Mae Hughes Cloe and Mattie McCalley Chinn and I would appreciate information about them.

Helen Mills received her BS in 1925 from MWC and an M.A. from Columbia in 1929. She was a post-graduate teacher, assistant principal, in the H.S. at Marye, 1921-24, and principal, 1925-26; supervisor H.S. math and science in the MWC training school, 1926-38, and was assistant prof. of education at Washington College, Chestertown, Md., 1938. She is in *Who's Who of American Women* and *Who's Who in the South and Southwest*. She is Dean of Students at Coker College, Hartsville, S.C., and will be listed as a full professor in the 1967 edition of the college catalogue. She spent most of the summer of 1957 in Europe. Her mother has had several strokes, so Helen now tries to spend most of her vacations with her mother.

Does anyone know anything about Sarah Bivens, Wingate, N.C., a niece of Prof. Tyner, or Sallie Moody, Dillon, Va.?

You see how much news my 35 cards brought! I stopped teaching because of arthritis, so do not have any more real trips, but am a housekeeper for my brother. I want to thank each one of you for the nice letters.

Fredericksburg 22401

Frances Johnson Hubbard (Mrs. Robert M.) is teaching grade four at Robert E. Lee (private school) in Charlottesville, Va. She resides at 311 Montebello Circle.

Minnie Byrd Healy writes from Montross, that she taught Home Economics for 32 years and in 1962 went to Stratford Hall to serve as dining room hostess and manager. From April through October they served their famous "Ham, Yam and Jam" to more than seventy thousand persons. After the dining room closed they made and sold eleven hundred pounds each of plum pudding and fruit cake. "I enjoy this but miss teaching; however the pressure is not as great."

Please let us hear from other members of the Class of '30.

'31 *Ola Murray Martin* (Mrs. Thomas C.)
Beaverdam 23015

Kaye Gallagher Spirito has just returned from her fifth trip to England. If you girls in the Class of '31 recall, Kaye came to MWC straight from England. Kaye spent a month in England where she attended an annual affair at Penns Hall Habel, Sutton Coldfield, Warwickshire. Friends at the reunion were "jolly well pleased" to see Kaye after "thirty years to the month." Needless to say Kaye is still aglow with the joy of her latest trip.

Kaye, who is now Mrs. Michael W. Spirito, lives at 840 Park Ave., Elizabeth, N.J. She and Dr. Spirito, who is a prominent urologist, have 4 children: Michael, Jr., 24, an assistant chemist; Anthony, 22, a Seton Hall University Law School student; Maryella, a sophomore at Skidmore College, Saratoga Springs, N.Y.; and Catherine, a senior at the Vail-Deanne School in Elizabeth.

As vice-president of the Class of '31, Kaye writes that she would dearly love to read more about the girls of our class in the *Alumnae News*.

'32 *Margaret Lodge Copes* (Mrs. P. D.)
Davis Wharf 23345

HELP! I need some answers to a few questions. If you will help me find them, I'll compile all information in an effort to prove that there really was a Class of 1932 at MWC. Here are the questions!

Was there a Class of 1932? They haven't been heard from in a long time. Where are you? Are you married? What do you do? Any children? What do they do? What is your address (important)? Send me the answers now, telling all about YOU. Maybe we can prove to the other alumnae that there WAS a class of 1932.

By the way, did you know that the Alumnae Association is doing wonderful things through the ALUMNAE FUND and that is the only means of support now. No more dues!! A contribution of any amount is welcomed. According to Fund records, it is a known fact that there are six members of the Class of '32 still alive. Incidentally, the Association is interested in the percentage of participation more than the amount. Have you given? If not, send your contribution today to Alumnae Office, Box 1315 College Station, Fredericksburg, 22401. Wouldn't it be great if we could show 100% PARTICIPATION IN THE ALUMNAE FUND!

PLEASE! Send ME the NEWS! I'm almost sure there was a class of 1932. Do hope we can find it—but one thing's sure, we can't do it without your help.

Annie Rives Goodloe Anthony wrote that she and her husband, George attended a convention of American theatre organ enthusiasts in Richmond this summer. She and *Virginia Harris* Gooch '38 had a nice visit. During this time I was at home in Connecticut, so we missed seeing each other. Annie also reported talking with

Mamie Olive Broach in Suffolk.

Mae Thomasson Sanford '34 has 2 daughters one married, and another, Jody, who is now attending Westhampton. "Tommie" ventured back into school work after an absence of several years.

Grace E. Herr is still teaching at Madison College at Harrisonburg—wishfully dreaming of retiring. Come on Grace!

Frances Mayes continues in the State Dept. of Physical Education. She frequently goes home over weekends. That is about the only time I would be able to see her even though she is right here in Richmond.

Several months ago *Camille Scales*, who teaches at Chancellor Elementary, and I enjoyed a pleasant telephone conversation—here's hoping some day we can have a real visit.

Virginia Harris Gooch lives nearby on West Seminary Ave. She has a responsible position with the C&O railroad. She also has a married daughter, a grandchild and another daughter in college. Thus she is pretty well occupied all of the time!

It was a most pleasant "shock" when a lovely letter arrived from *Lorry Folger* Duffy who lives in Burrington, R.I. She had a grand few hours chat with *Helen Shurtleff* Tyra who is at her old home in Martha's Vineyard. Helen was a county probation officer on the Vineyard the last time I heard from her. She had a daughter who must be finished with graduate work and a son graduated from Dartmouth by this date. Lorry, herself has a daughter, Michaela, who is 13 and in the 8th grade. Lorry has returned to teaching in her old field of home ec. in the local junior high school. Vincent, Lorry's husband, is associated with the Falstaff Brewing Co. in Providence.

Kay (Katryn Lee) Gray has been in Elmira, N.Y. for some years now. Kay's business, in which she is a partner, is a sporting goods establishment. Sounds most interesting. One of Kay's hobbies is collecting antique pistols.

Betty Griffith Beveridge apologises for not knowing news of our classmates. It is not that "our group" is actually inactive but too absorbed in various pursuits—personal and family. Andy and Betty seem to be traveling worldwide. They spent a week in Hong Kong and two weeks in Japan last spring. Their older daughter's husband went with IBM after graduation and has located in Roanoke. Lynn, the younger girl, is a senior at U. of Md. where she has received all sorts of honors. She is President of Mortar Board—has a 3.8 average, also is treasurer of Kappa Kappa Gamma.

The most recent news of *Mary Etta Payne* Gordon was that she was living in Falmouth and teaching 1st grade at Hartwood Elementary in Stafford County.

Tonight I expect to attend as a guest the travelogue program of Saint Paul's Church Sodality in Richmond of which *Marie Krafft* Kellegher is president. Mike, her husband, is vice president of the Seaton Heating Corp. in Richmond. He is finishing his term as Grand Knight of the Diocese of Richmond Knights of Columbus.

Jo Griffith Kleiner '34, enjoyed a fine time this past summer crabbing, fishing and gabbing with *Joan Brickhouse* Beall and *Mallory Hufty* Zohn. Jo and Murray live in Miami, Fla. Their son John was home from college in Calif. at Christmas. as was Mary Jo, who is an airline stewardess.

Some of these contacts mentioned are from alumnae in neighboring classes at MWC, but none the less of news value. Among them is news of *Eulalee Wimbrow* Gilliss '38 from one of my favorite memory spots—Chincoteague. She and *Grace Herr* missed each other a few years back in Charlottesville. Eulalee and Bob both teach—he teaches French and Eulalee 2nd grade. Their only son Jack is attending William and Mary.

Sue Hickerson Swindell '32, is hoping to retire after 25 years at the bank in Silver Spring, Md. Her sister is now living in San Diego, Calif. and is much pleased with it. She is planning to visit there in June with an eye for a suitable place in which to settle in 1969. She served for 11 years as treasurer of the Maryland Suburban Chapter of MWC Alumnae.

When the Teacher's Institute of the Catholic Diocese meets each fall at the John Marshall Hotel, *Mary Bell* Welsh and I usually have a good talking fest. Her son John entered U. Va. in September. Debby is in the 8th grade.

Lois Petersen Humphrey '37 from Burlington, Conn., has had an eventful year. Her navy son was home for a few short weeks in Sept. The younger daughter will graduate from Wake Forest in June. The married daughter, Joan, lives nearby and has a bouncing son. The last but not least, Glenn, is in junior high with many irons in the fire. "Pete" is anticipating a busy 1967—30th reunion at MWC and Sue's graduation in June. In November, Pete and Stan have a 25th wedding anniversary. A pretty full calendar—we'd say!

If any of the old crowd find themselves in the vicinity of Saint Joseph Villa, we'd love to show you around. It's a beautifully appointed residence for socially disturbed children—it's a real challenge to teach such a group, but a rewarding one!

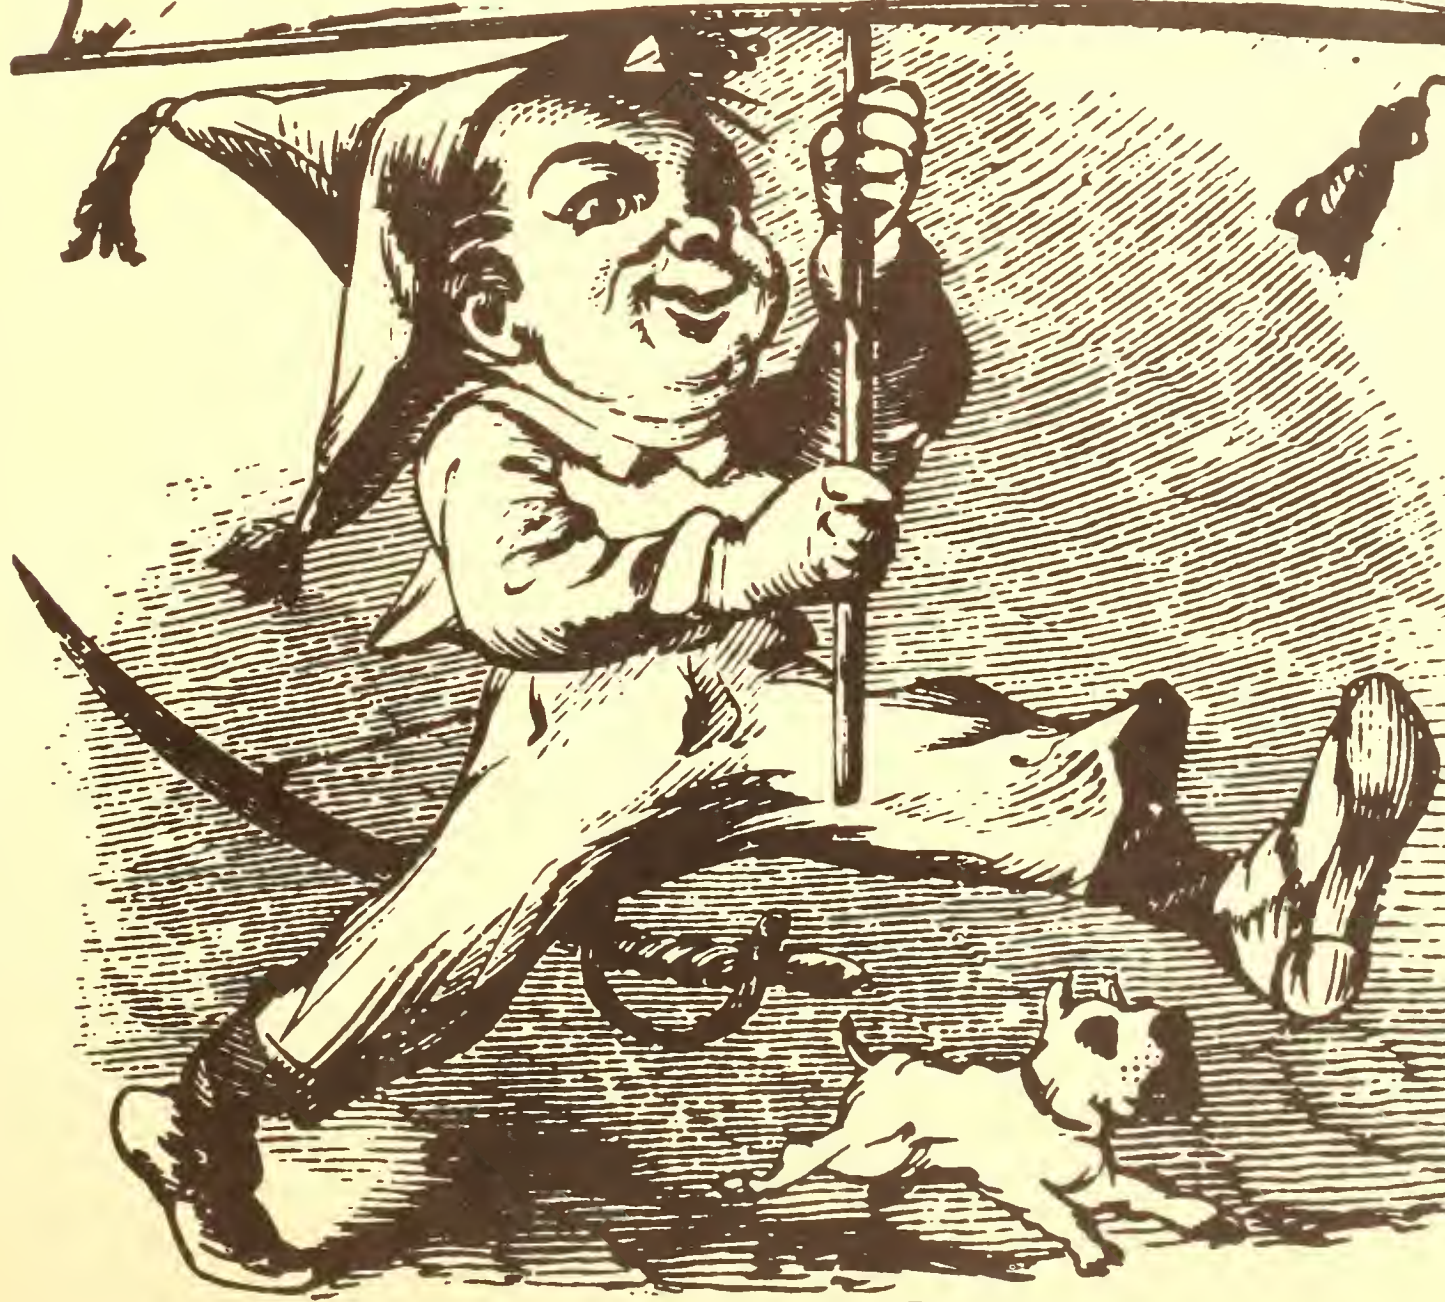

Best of everything for the year of the Ram—1967.

Deadline time again, and no answer to my plea for HELP! It is only a short time before our thirtieth anniversary, and so many plans need to be made. We had a glorious reunion (twenty of us present) at our 25th anniversary. Girls, if someone doesn't volunteer as Class Agent, please come to the reunion and let's elect a Class Agent who can keep the Class of '37 alive. PLEASE!!

The eyes of the world are on the East —
What's happening there now . . . what may happen
next? MWC has been taking a special look at India,
the giant of the East, through the U.S.-India
Women's College Exchange program in which we
take an active part. Because of India's importance,
politically, socially, culturally, this year's
Homecoming activities will FOCUS ON INDIA—
from the Friday night film through the Men's
Smoker to Alumnae College, where the panel will
speak from firsthand experience. Dr. Roger L.
Kenvin and Dr. Mary Ellen Stephenson each spent a
year teaching in India; Dr. Lewis P. Fickett, Jr.,
attended the institute in Indian Civilization at
Osmania University, Delhi, last summer and will

teach in India next year. Moderating the discussion
will be Miss Elizabeth Lam, administrator of the
Indian Exchange program. Nostalgia, reunions and
fun are also on the week end agenda, with
husbands invited to stay with you in the
dormitories and take part in the special events
(bring his clubs if he wants to join the friendly golf
tournament). Everyone will be the college's guest
for meals and accommodations. Tickets for the off-
campus Alumnae Party Saturday night will be
available when you register—there will be music,
dancing and cocktails or not, as you wish. Just mail
in the registration card BEFORE THE MAY 19
DEADLINE.

VOTING PROCEDURE FOR THE 1967 ELECTION

In June 1967 five of the 15 elected members of the Board of Directors of the Alumnae Association of Mary Washington College will retire from the Board, their three-year terms having expired. They cannot succeed themselves. The retiring members and the groups they represent are:

Elinor McClellan Cox '45	Zone 4
Lucille Wheeler '23	Classes 1913-26
Margaret Lodge Copes '32	Classes 1927-38
Arabelle Laws Arrington '41	Classes 1939-50
Doris Steele Lequin '52	Classes 1951-56

As each class graduates, the Alumnae Association happily welcomes several hundred new members. So that proportionate representation by class and geographical location will be maintained as consistently as possible, the Nomination-Election Committee studies the representation at regular intervals and makes recommendations to the Board of Directors. At their May 1965 meeting the Board of Directors adopted the following class representation:

CLASS REPRESENTATION		10 Directors	
Classes 1913-1931	1	Classes 1950-1957	2
1932-1941	1	1958-1962	2
1942-1949	2	1963-1966	2

The total number of Directors on the Board remains the same. No change was made in area representation:

AREA REPRESENTATION		5 Directors	
ZONE 1 (Virginia)		2	
ZONE 2 (DC; Md; Del; NC; SC; Tenn; Ala; Ga; Fla.)		1	
ZONE 3 (Me; Vt; NH; Mass; RI; Conn; NY; NJ; Pa; WV a)		1	
ZONE 4 (All others, including foreign)		1	

Also on the ballot are the names of two candidates to replace the retiring member of the Nomination-Election Committee, Sarah Herring Estes '51. The Nomination-Election Committee prepares slates of nominees to the Board of Directors and supervises the details of elections according to provisions of the bylaws. The three members elect the committee chairman each year. The other members of the Committee are Anita Swertfeger Werner '58, whose term will expire June 1968, and Dorothy Fourqurean Beale '44, whose term will expire June 1969.

Voting in this election shall be by mail only **ALL BALLOTS MUST BE POST-MARKED NO LATER THAN MIDNIGHT, FRIDAY, MAY 19, 1967.**

NOMINEES FOR THE
NOMINATION-ELECTION
COMMITTEE (Vote for 1)

MARY E. MASON '36, Fredericksburg, Virginia

"I will allow my name to be placed on the ballot and will serve to the best of my ability if elected."

Mary has served as Treasurer and Chairman of the Fredericksburg Chapter of the Alumnae Association and was formerly a member of the National Alumnae Board of Directors, Alumnae Council and Homecoming Committee. Since her graduation from MWC, she has been active in the teaching field and is currently a Home Economics teacher at James Monroe High School, a position she has held for nineteen years. Mary has been Editor of **Virginia Home Economics Teacher's News Letter** and President of the Spotsylvania County Woman's Club. Since the last Bulletin there has been exciting news from the class of '43. Most of you were unaware that we were "guinea pigs" in the mailing of the Christmas letter. Both the office and I were delighted with the response, and hope that those of you who haven't sent in your questionnaire and contribution will do so promptly! We "lost" 10 contributors last year who gave before. Please help us improve! We received 17 questionnaires in the first 6 weeks— and lots of news!

First, I had a marvelous letter from *Isabel Martin Wermeyer* from Tripoli, Libya. She has really traveled since she went to work with NASA at Langley Field. From there she went to Edwards Air Force Base and worked on the first rocket ship project, the X-1, married Ray in December, 1947 and thence to St. Louis, California, Brasil and Libya (since '62). Her husband, a geologist, is a well site supervisor for Oasis Oil Company. They have 2 sons, Keith 14 and Brian 10. Every 2 years they return to the States and she has kept in touch with *Sara Curtis Nichols*, *Peg Faulkner Griffin* '44, *Judy Preminger Rappaport* and hopes to see *Hilda Holloway Law* in Geneva this year. Do drop her a line—Mrs. Raymond A. Wermeyer, c/o Oasis Oil Company of Libya, Inc., P.O. Box 395, Tripoli, Libya.

Frances Rector Steagall of Ozark, Ala. has 2 sons, Henry 18 and Freddy 12, and daughter Susan 17. Her husband, Henry, is an attorney and Representative in the Alabama Legislature. Another big surprise—*Edith Winslow Staalman* is a proud grandmother! Her daughter Linda had a baby girl, Laura Marie, in September. This is the first one of which I am aware. Congratulations! *Beulah Spain Spatig* is teaching 1st grade in Hopewell where she lives with John Mark 14, Linda 18, and husband John who is in the dry cleaning business.

Would you believe *Bea Draper Atkinson* has 7 beautiful children ages 2-17 years; 3 boys and 4 girls. (We hope the Bulletin will run their picture.) They live in Severna Park, Md. where George has recently been moved as system

designer for the C&O Railroad. In her spare (?) time she won golf trophies at the Spring Valley C C, Huntington, W. Va. in '65 and '66!

Debbie works as "girl Friday" in a florist and nursery. *Juanita Fletcher Bernau* teaches business in Stuart High School, Fairfax Co. where son Carl III, 18, goes to high school. Husband Carl is an electronics engineer with the Army and they live in Falls Church. Thanks to Edith, Beulah, Bea, Angie and Bertha for enclosing the snapshots. Please send one of you or your family.

We had a short note from *June Foster Fry* that they have moved across the Potomac to Reston, Va. Their oldest son Dave, at Indiana U., "is directing a series of dramatic tapes for radio programs for the University FM station." Her husband was assistant librarian for a while at MWC. *Suzy Decker Sugg* writes that her husband, Howard, is finishing his PhD thesis in Political Science at American U. in Washington. She works with the DAR and Army-Navy Chapter as well as helping on the thesis. They hope to find a college teaching job in a warm climate.

Christmas brought notes from *Flora Copenhagen DeBusk*, *Myran Russell Ten Eyck* and *Nancy Inglis Russo*. Flora has Amanda 11 and David 9 and joins *Frances Rector Steagall* and *Lee Hall Archer* for a reunion of families once a year. Myron hopes to come to Reunion '68 and will send me news later. Please all of you DO! Nancy took her family to Fredericksburg for Christmas 2 weeks and is helping me locate some of the local girls. She says, "MWC has grown so I hardly know the the place anymore." Becky Spitzer Harvill is teaching full time this semester. I was sad to learn from Becky that *Sue Webb* ('54) was killed in a traffic crash near Lexington in October, and that *Jeanne Rowell* Roberts' ('54) husband died last spring.

Elaine Wimberley Axley is living near Montgomery, Ala. until June. John is attending Air Command and Staff College at Maxwell AFB. He returned from Vietnam last June. They have 4 children.

Nancy Mosker Weir is living in California. Her husband is a test pilot. *Lois Harder* is teaching at Goucher College in Towson, Md. *Judy Graham* Kanakanui ('54) is living in Beckley, West Virginia. Her husband is an architect.

Fortunately, Christmas cards brought news of some we haven't had a report on in years. However, the great majority of you remain in the lost column. We'd be so happy to find you again!

Mary Ann Dorsey Judy reports that she and Paul are living in Northfield, Ill. where Paul is chairman of the executive committee of his firm. With Carol 11, Hannah 10, John 7 1/2 and Beth 5, Mary Ann is kept busy with the usual PTA, music lessons, etc. She and Paul have done a great deal of traveling, which sounded like fun.

Mary Ann has heard from *Carolyn Barnes* Houlgrave; *Nancy Root* Skinner, who has 2 daughters; and *Betsy McNeal* Brann, who has 2 children. She didn't mention where they are.

Anne Levey left D. C. last spring and is with the Va. Health Dept. in Richmond now. She was delighted to find that *Ruth Ann Brand* Bear is employed there also. Anne enjoyed a trip to England before moving to Richmond.

Edwina Wright Blankenbaker wrote that her roommate, *Cathy Martin* Martin, Earl and 2 children are living in Lima, Peru, where Earl is with Goodyear. *Pat Ashley* Mathena, John, and daughter Ann are living in Clinton, Md. *Jingles Kirkwood* Browning and Bill are in Culpeper; and Edwina thinks that *Sara Waugh* Hurst and Jack are in Kentucky. *Patti Bea* Henson Adams, Walter and 3 daughters moved to Atlanta where Walter is flying for Eastern. Edwina stays busy with Susan 12, Kim 10, Whit 5, and Ann 2 while Walter practices medicine in Louisa.

Pat Swain Holzberlein always sends an interesting letter about her family. Bill is 8 and Patty Sue is 10 1/2. Her husband Bob is still with Eastern at the D. C. airport now. Pat is teaching with the Recreation Dept. They had a delightful

summer in Pennsylvania, horseback riding and water skiing.

Linda LeHardy Sweet, my roommate, says that Tim, their fourth son, is the light of their lives. It sounds very tempting, but Duke seems to think our 3 will be enough! She writes that she and Jauncey will be in Coronada 2 more years with Jauncey as C. O. of Diaton.

Joannie Kaitner Lyon and family are in Coronado also while Pete is in West Pacific. He'll return in May. Joannie said that they still like Florida better and Mary Ann Dorsey Judy implied the same. I had to put in that C of C plug because of course we love it here! With our new golf course, we're playing golf as much as possible; and tho a beginner, I'm quite enthusiastic.

We frolicked with the squirrels by the amphitheater in the fall and will be returning to F'burg in the summer. MWC looks much larger, but it's still lovely. I saw the Dodds in the grocery store and that is always a treat! Duke's folks live across from the new hockey field at the end of Sunken Road, and so we get to see a lot of MWC when we visit there.

A big "hello" to you during this wonderful season! Hope this finds you all well and enjoying the eternal newness of spring! Let's sit down, take some time from duties and chores and have a little chat about class news. The Westchester Alumnae Chapter invited the Conn. alumnae to join them in their endeavors. I attended the fall and winter meeting and look forward to our spring luncheon. We attended the AAUW's Forum at the Waldorf-Astoria in Feb. and enjoyed the luncheon and excellent program. Judging by the interest and the number of alumnae located in Conn., we should have our own chapter in the future. Hope to see you Westchester and Conn. friends at the spring luncheon—it will be another "wonderful time."

I am no longer in the advertising field—surprise! Since Sept., I have been studying for my master's degree at the U. of Bpt. I still plan to "create" and "sell", but this time it will be an interesting educational program for the primary grades, which are the important years. Before we run out of space, I'd like to say that it was nice getting together again and please don't forget to drop us a card this summer on your vacations. We enjoy hearing from you—and we do have a job to do for YOU. Have a wonderful summer and my thanks to all for helping me write this column. Best wishes to you and your families.

Since the Dec. deadline, I've had fun seeing or talking on the phone to a few classmates, so between that and Christmas cards, I have much news to tell! I called my roomie, *Janie Riles* Wamsley, to wish her happy birthday and happy baby—she had a daughter on Nov. 23 and named her Annelise after a mutual Danish friend of ours. She and Bill are in Peoria, Ill., (1363 W. Tobi Lane), where he is in a training program until around June, at which time they hope to go to Europe. Her brother Tom is "the best medical student in five years" at Baylor, which is quite a compliment.

Over the holidays, Andy and I drove into Washington and saw two classmates, *Jean Ryan* Farrell and Frank, and *Dee Doran* Cairns. Jean and Frank had been back from Italy about 3 weeks and were visiting families and friends before leaving for Fort Sill, Okla. They don't expect to be there more than 6 months, then Ft. Bliss, Texas, then?? Jean looked marvelous with her short Italian haircut and beautiful Italian knit clothes! They had also been to dinner at *Clara Sue Durden* Ashley's and *Babs Buse* Johnson's, both of whom live in the Maryland suburbs. Dee is back in Alexandria, Va., (6412 Rose Hill Drive), down the street from her parents, while Doug is in Thailand, flying 100 missions to North Vietnam. He left in November—she looks as pretty as ever and her two children and big Irish setter keep her busy. She says that *Bev Carlson*'s Marine is in Vietnam, also *Nancy Wright* Wright's husband is there. Dee, Bev, and Nancy planned to get together after Christmas. *Patty Cairns* Hourin and Jim are living in Texas.

I got another letter from *Carolyn King* Moore-side just after the last deadline, with some corrected and additional news. The current scoop on *Nancy Hottle* Jones is that her husband Jim left for Da Nang, Vietnam before Thanksgiving to serve with the Marines as a legal council. She and baby Beth are living at Apt. 201, 4959 Americana Drive, Annandale, Va. 22003. *Donna Blankenship* Senter lives in the same apartment complex.

A long letter from *Mary Jane* Giles Stearns had much news of the "Missing Girls of '61"—thanks so much! She and Bill are busy with their 30-year-old home (redecorating) and taking care of their first child, Elizabeth, born in April '66. Denby Singley Powe wrote an early Christmas card (the first one I got) saying that she was expecting her 3rd around Feb. 28. *Clara Sue Durden* Ashley saw her in Columbia over Christmas—she was expecting, her 2nd, around Feb. 26! Denby also wrote that *Judie Reese* moved to Hawaii (what a neat place to live!) this past June and is to be there until at least next August and maybe longer. She's working with a company that constructs government housing. She loves both Hawaii and her job, and is living with another girl from Columbia. *Lou Roath* Helwig '60 is also over there, and she has a daughter named Denby!

Lynn McCarthy wrote a long Christmas letter telling about her interesting life in Lexington, Ky. She is in her third wonderful year as a Social Worker for the Ky. Dept. of Child Welfare. Through her job she has traveled to Charleston, S. C., Louisville, eastern Ky., etc. She also made a trip to College Park, Md. to the NCAA basketball finals, to our 5th Reunion, to Raleigh, Norfolk, and "around". She plans to return to college to get a master's degree in Social Work, starting this fall, and is considering RPI and Tulane. Good luck, Lynn, and thanks for all the news. Sorry I can't print it all.

Joan Gibson Lippold and Jim had their 2nd daughter on Dec. 8th. Jim has resigned from the Navy and was released in Jan., in time to begin graduate school at NC State in Raleigh. Joan is really looking forward to this new life.

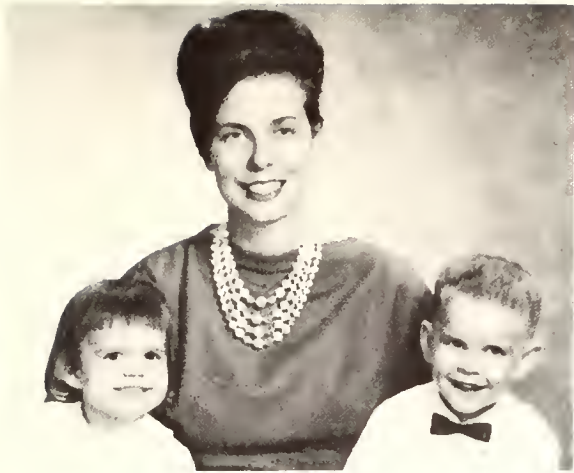

Two more classmates have husbands in Vietnam. *Charlotte Howard* Austin's Hank left in August and she and son Edward rented a small house in Columbia, S. C. She hopes to do substitute teaching after Christmas, and in February, if all went well, she planned to fly to Hawaii to meet Hank on his 5-day R&R.

Eleanor Knight Jensen and Cliff have been busy decorating and getting settled after their marriage Sept. 3rd. *Judith Bressler* and *Sue Olinger* Shaw came to the wedding. Eleanor and Cliff live in Charleston, W. Va.

Pat Pollock McFarland wrote her usual newsy card from Costa Mesa, Calif. where she is busy with hospital work, Sunday school, PTA, and keeping up with 1st grader Lynn and young Rusty. They took a marvelous trip through the Pacific NW this summer, and the big treat for the kids was an Idaho dairy farm.

Sandee Judkins Armitage, husband Bob, and 2 daughters are happy in their Brookfield, Conn. home which has wall-to-wall carpet all over now. Her brother married last summer and daughter Lisa was flower girl.

From Norfolk comes news from *Sarah Leigh* Kinberg, and also a lovely photo of her and her children. Tom is due for orders: his ship was supposed to go on a five-month cruise in Jan., but she was hoping he'd get off in Feb. She wrote that *Sylvia Garland* Wickwire is expecting #2 in April. Sarah sees *Cay Whichard* Lewis often, and at her oldest boy's birthday party she saw *Anna Burton* Hathaway with her girl and boy. Walt is teaching at a Jr. College in Fla.

Sarah Leigh Kinberg '61, of Norfolk, with children, Toni and Sarah.

"Georgie Georgeou" Rahnias and her husband and daughter have moved to their new home at 6 Dublin Lane, Hazlet, New Jersey 07730.

Pam Ristori Correll loves Ann Arbor and has gotten involved with the AAUW, a sewing course, an oil painting course, and other activities connected with the University. Bob is working on his MBA in addition to his work at Conduction Corp. She sent photos of her Kimberly and Bobby.

The desert is beginning to get to Mary Martin '62 who is teaching her last year at China Lake, Calif. She finds it too isolated and she wants to finish her MA which she has been working on in the summers. She feels there are enough of you in Calif. to start an alumnae chapter out there—good idea, Mary.

I think I've covered all the news now, forgive me if I left something out. I finished my master's of education degree in Jan. and am enjoying my second year of teaching. As usual, Andy and I have done quite a bit of skiing this winter. Diana Copple '62 is here in Wilmington and is an active skier, too! Have a good spring and please send me any news.

—Connie—

As always, I seem to be running months behind in reporting the news. All of the Social Security Amendments which were passed recently have kept us jumping. I'd be remiss not to give a hearty "Thank you" to Connie who has kept up with the news so that all of you know what is going on.

I recently spent the week end with Betsey Hueston Hansen in Denbeigh. She is living there with her daughter while Carl is in Vietnam. She and Carl took a trip to Nassau shortly before he left and thoroughly enjoyed it. She hopes to be able to visit him in Hawaii later this year. We had hoped to get in touch with Joyce Sweet Longest who is living in Richmond, but were unable to reach her. Carolyn Rose Barnette, of Miami, Fla., was among the 220 graduate students receiving a master's degree in education on 8/13/66 from Florida University. She plans to continue her work as a television studio teacher for Channel 2 in Miami. She is also a member of the faculty in the School of Continuing Education at Florida Atlantic U.

Marcia Minton Keech writes that Bill will return from Vietnam in Feb. and will attend Stanford U. in April for his master's degree. Needless to say, they are pleased and excited over the prospect of living near San Francisco for 18 months. The Croushores received a Christmas card from Ian and Kay Slaughter McNett. Kay writes that they are truly enjoying Washington. Ian is the Washington correspondent for a new bi-weekly newspaper on higher education. She is working part time as an editorial assistant for a preschool and primary education journal. They have two children, a boy and a girl. Regina Young Hall is now living in Winston-Salem, N. C. Her husband is taking a 3rd year radiology residency at Baptist Hospital. They are expecting their 2nd child in July.

There was also a short note from Jane Tove Laurson. She and Ivo are enjoying beautiful Bennington, Vt. The only new addition to their family is a tri-color collie. She'd be very happy if any classmate or former MWC girls in or visiting that area would give her a call.

"Bunny" Rogallo Samuels and husband are still living at Camp Lejeune. Phil is leaving the first of Feb. for Vietnam. She plans to live in Jacksonville, N. C. while he is gone. She writes that Barbara Anderson Lehto, Mike and the children are still there and live a few blocks away. Helen L. Hudson is now a stewardess for United Airlines. She is a sky-diving and sail-plane enthusiast, and holds a private pilot's license. Sue Olinger Shaw now lives in Nashville, Tenn., where her husband is a member of the Dept. of Economics of Vanderbilt University.

Carolyn Crum Pannu is another who is fortunate to be in sunny Florida while the rest of the country tries to dig out of all that snow. Pat Scott Peck and Rodney are living next door to Carolyn and Singh in the U. of Miami "married apartments." Rodney is preparing for law school, and Pat teaches art in junior high. Singh will receive his M.D. degree in June and is hoping to specialize in ophthalmology. They planned to go to India for a vacation in Dec. Shortly after the fall deadline I saw *Fran Elkin* at National Airport. She had just returned from a summer in Europe. We had a nice chat trying to cover all the news we'd both heard since graduation. Fran, like many of us, has been teaching since '64. Also saw *Norma Bass* Howard and David New Year's Eve. Norma is still teaching at Quantico.

Jeanne Fornes Updike wrote an account of her activities since June '64. She and Tommy have been in Richmond and have bought a home at 1606 Ridge Avenue. Jeanne worked nearly 2 1/2 years as a home economist for VEPCO and then resigned to become a full-time homemaker. Tommy worked as a research chemist at MCV Dept. of Pathology. He expects to receive his degree in June '67 from the graduate school of Rehabilitation Counseling at RPI. As part of his training he has been doing fieldwork in rehabilitation counseling in the Richmond area and has found his work very rewarding and extremely challenging. Thanks, Jeanne, for your letter.

Sharon Belknap is now a shelflister at the Library of Congress in D.C. Sharon spent the past summer working on the staff of Glorieta Baptist Assembly, Glorieta, New Mexico. She included news of *Lucy Fielding* Bowen, a transferee to U. Va. School of Nursing after her sophomore year. Lucy is in Fort Worth, Texas, attending Southwestern Seminary.

Caroline "Sue" Chennell Lapham is in Rota, Spain, with Dave who is with the Marine Barracks at the naval station there. Sue writes: "Luckily, we have housing on base, and I am

really being spoiled by it. Our area is typical of all you picture when you think of Spain—warm climate, gypsies, flowers on every window sill and balcony. We're about 15 miles from Jerez, the Sherry center, much to my husband's delight—and vineyards are all through our section. We're about 30 miles from Cadiz and 90 from Sevilla, and have been to both cities often—also up to Granada, Malaga, then to Gibraltar and around the Costa del Sol. It's almost impossible not to have to learn some Spanish, since we're really in the country and hardly anyone speaks English. It's a struggle trying to communicate. We should be here for three years. Hopefully, we'll take a 30-day leave and tour Central Europe in May. I hate to put traveling off too long. From the way things are going, we may not be able to get across France if we do!"

Thanks, Sue, for helping to locate some of our "lost" alumnae. Everyone, please keep office and/or your agent informed of your current address.

Enjoy the summer of '67 and write and tell us about it.

As the new class agent for section A-C I have received little news from you. A newsy postcard sent to the above address will enable your classmates to know of your activities—and you of theirs.

Virginia Bateman was married to Kenneth M. Hewitt on Dec. 20, Hawaiian style, in the oldest Christian Church in Hawaii. Ginny is working as a mathematician for the Navy while Ken is deployed to the West Pacific until June. Ginny's address is 1455 Luisitana St., Apt. C-5, Honolulu.

Carolyn Davis is combining graduate work in French at Georgetown with government work, and shares an apartment with *Raquel Weyse* now a teacher in Vienna.

Talked with *Donna Clark*, who was at MWC for two years and is now a senior in pharmacy at MCV. She is engaged to Michael L. Edwards, and says she is in the "senior slump."

Also heard from *Nancy Derrick* who is doing graduate work in biochemistry at Yale. Her address is 420 Temple Ave., New Haven, Conn. She writes that she is planning to be married in July.

Anne Bresnahan writes that she is working in the office of Industrial Security at the Defense Supply Agency in Alexandria. She took two evening courses on her master's at Geo. Washington U. last semester. During April her office is sending her to an Industrial Security School. Every Saturday morning she teaches religion to 10 4th graders—quite a chore she says, but she enjoys it. She sends the following news of other classmates:

Lynn Hartmann White and Anne are taking a physical fitness course together. Lynn's husband Bob has been teaching at Jefferson High in Fairfax and has accepted a position at Vermont College for next year.

Linda Ann Martin is working at John Hancock Life Insurance Co. in Norfolk. *Sandy Pearson* is working at D. S. A., too, and is really impressing her co-workers (male types) with the fact that looks and brains can and do go together.

I am working on an MS in nursing at New York Medical College, and live in a predominately Spanish-speaking area. Quite a change from MWC, but N.Y. is great!

Fellow MWC New Yorkers—I don't know who you are but am sure there are some—how about arranging a "get-together." Drop me a card.

I hope that by now everyone in the Class of '66 is settled in her new life as a recent graduate of MWC. Addresses must be established, so let your class agents know where you are and what you are doing.

You would have thought that the meeting of the new Fairfax County teachers was a reunion. Among some of the girls I was able to talk to were Sally Souder, Susan Hanes, Kathy Rogers, Carol Trent, Pat Previte, Ryan Stewart, Joan Cuccias, and Brenda Lay.

Susan Hoge and Sarah Dixon are living in Fredericksburg and teaching nearby. Nancy Echols, Judy Abbot, and Brenda Forlines are rooming together while they are teaching in Hampton. What grade or subject, girls?

While some of us were enjoying a Christmas snow storm, Nancy Echols was touring Hawaii with Loreeda Jones, director of the Wesley Foundation. How did you like the sunny weather, Nancy?

Got a note from Glenn McNulty. She married Newt Colston in June and both are now in grad school at VPI. Glen writes that Newt will get his PhD in engineering statistics in March '68 and that she hopes to achieve a MA in English by August '67. They both plan to teach in college.

Speaking of graduate school—Barbara Clark and Norma Woodward are at the University of Wisconsin.

I've also heard from Shirley Kohl. She married Gaylord Hiler in August and at present is living and teaching health and phys ed—in Kettering, Ohio.

Since graduation I'm sure that members of our class have been scattered all over the world. Sally Boss is in Kenya, Africa. Hope you are finding your work very rewarding, Sally.

Happened to run into Anne Heinline while shopping a while back. She is teaching in Maryland and living with Sandy Beville at Southern Towers.

I am also teaching in Northern Virginia. Betty Jean Chewning is rooming with me in Annandale at Americana Fairfax. She teaches the 2nd grade at Ravensworth Elementary in Springfield while I cope with 9th graders taking World Geography at Langley High outside of McLean. We are both enjoying our work and have had fun decorating our apartment—even to having the drapes fall.

Hope that I will be hearing from you. Certainly there is plenty of news of jobs, engagements and marriages from our class. In case any of the present news is incorrect, I apologize. As I said before, it came from many sources. Write!!!!!!

I still do not have new addresses for many girls in my R-Z group. Please send them in soon

with any news for the Class of '66.

Jeannie Tate is still living in San Francisco and graduated from S. F. State in January 1967 with a BA in psychology. She hoped to start right to work on her MA in Special Education of Emotionally Disturbed Children.

I saw several classmates at Pat Bergin Bergman's wedding in December. Jay Jay Charron is working and living near her home town, Baltic, Conn. Ann Martin is enjoying living and teaching in Williamsburg. Although she lost a roommate when Pat was married, Brenda Taylor will continue with her interesting (?) government job near Washington.

Ambler Carter's wedding was a small reunion. Jane Campbell and Nancy Thompson Mountjoy were bridesmaids. Mary Ann Royal graduated from Ohio State in June and is now working for the government. Carol Lipscomb Ficklen is still living in Newport News. She enjoys being housewife and mother. Suzanne Boothby Council graduated from Old Dominion College in August and is now teaching 4th grade in Norfolk. I didn't have a chance to speak to Marguerite Wingo Saady and Joy Donahoe Sharpe.

Brenda Lay's wedding on February 4 brought another group of MWC-ites to Norfolk. Susannah Hagerty is now librarian at a branch of the U. of Richmond. She completed two courses last summer and is now working on another in library science. Bonnie Bobbitt is rooming with Susannah and teaching near Richmond. She has a class of primary educable mentally retarded children. If you think the name is a dilly, try a day with the class. I have had one of the same type in Norfolk since October, and I consider my survival of these 4 months a minor miracle. Despite the problems I am very happy to be working with children again.

Now back to Brenda's wedding... Jane Campbell and Nancy Alford were both bridesmaids. Ryan Stewart, who is teaching English in Vienna, was accompanied by Roger, Capt. USMC, whom she will marry in June. Judy Blum Wasserman has been living in Detroit and substituting in the schools there. Linda Grier is home from London for a short stay. Susan Hoge is teaching school near F'burg.

I saw Jan Gourley Gates at the Van Cliburn concert last week. She and Jim are living in Norfolk. Carolyn Kirkpatrick Smith and Reese (Lt., UASF) are now living in North Dakota.

If I haven't heard from you, please write soon.

to ascertain what we believed was best for Mary Washington's present and future. This has been, and continues to be, a tedious but dedicated effort. We have carefully weighed the advantages as well as the disadvantages of a continuing connection with the University of Virginia. We have considered

the opinions, advice and experiences of a number of prominent people in educational circles. In October we had a most pleasant meeting with the University Board, President Shannon, and Chancellor Simpson, at which time we generally stated our concerns and they their interest in the College.

Since then we have gleaned information which assures us we are not content with the status quo. (Here I wish to emphasize that our conclusions are in no way based on personalities. We have the deepest respect and highest regard for all members of the Board of Visitors as well as the administrators of both institutions.) Later in the year we plan to meet with the University officials again. We shall request their suggestions and ideas for a stronger representation on the Board of Visitors. We shall seek the status of "President," responsible solely to the Board, for the administrator of Mary Washington College. *Our desire is to become truly coordinate if the relationship is continued.* If the officials are reluctant to accept us as equal in rank to the University, or feel that they are too involved at Charlottesville and with their branch operations to give Mary Washington this status, then the Alumnae Board believes the time has come for the most serious consideration of separation. No one we have consulted has expressed any doubt about the College's ability to stand on her own with a separate Board of Visitors. (We would welcome your questions or comments. Simply drop me a line c/o MWC Alumnae Association, Box 1315—College Station, Fredericksburg, Virginia.)

Of course there isn't space in this letter to go into all the facets of our work. We hope that, through the *Alumnae News*, you have kept abreast of "what goes on."

Do come to Homecoming if at all possible, especially if this is your Reunion Year! (Remember, you don't have to be a graduate to be an alumna). Aside from having a sentimental journey to a beautiful campus, you'll see why so many of us are enthusiastic about our alma mater.

In closing, my heartfelt thanks to all who have—directly or indirectly—made this year, as your president, such a gratifying experience.

Most sincerely,
Adele Crowgey Giles

establish endowed chairs which will bring well-known authors and scholars to Mary Washington's faculty in the future. Many of the leading colleges and universities now have endowed chairs, including our brother institution, the University of Virginia, Miss Church pointed out.

In choosing this gift, Miss Church said, the Class is "looking forward to helping maintain an increasingly high standard of instruction for students in future years. Class members believe that by having this financial stake in the College's future academic program they, as alumnae, will keep in closer contact with their Alma Mater and its progress."

The insurance policy, which has been paid for in advance from the class's gift fund, is on the life of Susan Church. During the years of her life, the cash building in the policy will always be available for college needs.

A formal presentation of the policy is scheduled to be made at the Spring Convocation on Wednesday, April 26, which combines for the first time Senior, Loyalty and SGA Installation nights. The vote in favor of the gift was made at a class meeting on February 8.

The QUEST XX Insurance Program was adopted by the Alumnae Association

as a means of making available to the College larger sums of money for special projects than the annual fund drive could provide. A number of policies have been given by members of the faculty, Alumnae Association, and the Board of Directors. These gifts and this new Senior Class policy bring the total of the gift policies to \$40,500.

See additional information about the QUEST XX Plan on page 5.

Three Mary Washington Alumnae, also members of the Virginia Federation of Women's Clubs, are pictured on the cover of the winter issue of *The Virginia Club Woman* discussing with Governor Mills E. Godwin a scholarship program for teaching kindergarten teachers. They are Mrs. J. Hodges Parker (*Louise Luten* '40); Chairman of Education, VFWC; Mrs. James Minor, Jr. (*Frances Brittle* '55), 3rd vice president and Junior Director; and Mrs. E. Parker Brown (*Emma Zeigler* '40), President. The Federation is providing scholarships for teachers desiring to prepare themselves for this field of instruction, since the Virginia General Assembly has made funds available by the 1968 school year for the establishment of public school kindergartens.
